

# Read like a...

# Sports Student

Look for key terms and concepts.

Do you know what all the key terms and concepts mean? How can you improve this?

Read key information and instructions.

What do I need to do? What are the rules? Where do I need to be?

Interpret data, illustrations and charts carefully.

What is it showing? What can you infer? What can you expect?

Make links with other things you know.

How can you link this to other subjects such as science and food?
