

Read like a... Geographer

Look for
command
words

What is the question asking you to do? How should you structure your answer?

Look for key
geographic
vocabulary

Do you know what all the key terms and concepts mean? How can you improve your understanding?

Interpret
data
carefully

What is the general trend? Can you support with evidence? Are there any anomalies? Is the data reliable?

Look for
links with
concepts
you already
know

Where have you seen the key words before? What prior knowledge do you need to fully understand this? What are the links to other subjects?
